Announcement: New Subsection of Lipids & Lipid Metabolism *vii*

Publisher's Note *viii*

Information for Contributors *ix*

Review

Control of arachidonate levels within inflammatory cells
F.H. Chilton, A.N. Fonteh, M.E. Surette, M. Triggiani and J.D. Winkler (USA, Italy) 1

Regular papers

Thioesterase and protein deacylase activities of porcine pancreatic phospholipase A_2
M. Nocito, G. Roy, L.M. Villar, C. Palacios, A. Serrano, J.C. Alvarez-Cermeño and P. González-Porqué (Spain) 17

Oxidative stress mediates synthesis of cytosolic phospholipase A_2 after UVB injury
X. Chen, A. Gresham, A. Morrison and A.P. Pentland (USA) 23

Inhibitory effects of alkyl gallate and its derivatives on fatty acid desaturation
H. Kawashima, K. Akimoto, N. Shirasaka and S. Shimizu (Japan) 34

Developmental regulation of phospholipid secretion by fetal type II pneumocytes
M.J. Kresch, D.M. Lima and H. Lu (USA) 39

Peroxidative oxidation of leuco-dichlorofluorescein by prostaglandin H synthase in prostaglandin biosynthesis from polyunsaturated fatty acids
L.N. Larsen, E. Dahl and J. Bremer (Norway) 47

The pattern of apolipoprotein B100 containing lipoprotein subclasses produced by the isolated visceral rat yolk sac depends on developmental stage and fatty acid availability
D. Plonné, A. Stacke, K.-U. Weber, U. Endisch and R. Dargel (Germany) 54

Lack of correlation between ACAT mRNA expression and cholesterol esterification in primary liver cells
T.J. Rea, R.B. DeMattos, R. Homan, R.S. Newton and M.E. Pape (USA) 67

Low density lipoprotein receptor and 3-hydroxy-3-methylglutaryl coenzyme A reductase mRNA levels are coordinately reduced in human renal cell carcinoma
M. Rudling and V.P. Collins (Sweden) 75

Glucosylceramides of oat root plasma membranes – physicochemical behaviour in natural and in model systems
P. Norberg, R. Nilsson, S. Nyiredy and C. Liljenberg (Sweden) 80

Oxidation of high density lipoproteins: characterization and effects on cholesterol efflux from J774 macrophages
V.A. Rifici and A.K. Khachadurian (USA) 87

Cholesterol lowering action of HOE 402 in the normolipidemic and hypercholesterolemic Golden Syrian hamster
A. Hoffmann, M. Schmalz and M. Leineweber (Germany) 95

The molecular structure of apolipoprotein A-II modulates the capacity of HDL to promote cell cholesterol efflux
F. Bernini, L. Calabresi, G. Bonfadini and G. Franceschini (Italy) 103

β-Carotene as a high-potency antioxidant to prevent the formation of phospholipid hydroperoxides in red blood cells of mice
K. Nakagawa, K. Fujimoto and T. Miyazawa (Japan) 110

Characterization of the Fad12 mutant of *Synechocystis* that is defective in Δ12 acyl-lipid desaturase activity
Z. Gombos, H. Wada, Z. Varkonyi, D.A. Los and N. Murata (Japan) 117

Subsection

Review

Prostaglandin synthase 2
H.R. Herschman (USA) 125

Regular papers

Regulation of glycolipid sulfotransferase by tyrosine kinases in human renal cancer cells
M. Balbaa, K. Honke and A. Makita (Japan) 141

Alteration of glycerolipid and sphingolipid-derived second messenger kinetics in *ras* transformed 3T3 cells
J.C. Laurenz, J.M. Gunn, C.A. Jolly and R.S. Chapkin (USA) 146

Regular Section

Announcement: New Subsection of Lipids & Lipid Metabolism *v*

Publisher's Note *vi*

Rapid report

Estrogens protect against hydrogen peroxide and arachidonic acid induced DNA damage
M. Tang and M.T. Ravi Subbiah (USA) 155

Regular papers

Fatty acid ethyl ester synthesis by human liver microsomes
T. Treloar, L.J. Madden, J.S. Winter, J.L. Smith and J. De Jersey (Australia) 160

Tetrahymena thermophila: analysis of phospholipids and phosphonolipids by high-field ^{1}H-NMR
R.K. Adosraku, J.D. Smith, A. Nicolaou and W.A. Gibbons (UK, USA) 167

Dietary fish oil normalize dyslipidemia and glucose intolerance with unchanged insulin levels in rats fed a high sucrose diet
Y.B. Lombardo, A. Chicco, M.E. D'Alessandro, M. Martinelli, A. Soria and R. Gutman (Argentina) 175

The characterisation and cyclic production of a highly unsaturated homoserine lipid in *Chlorella minutissima*
W.G. Haigh, T.F. Yoder, L. Ericson, T. Pratum and R.R. Winget (USA) 183

Effect of short- and long-term treatments by a low level of dietary L-carnitine on parameters related to fatty acid oxidation in Wistar rat
P. Clouet, G. Semporé, M. Tsoko, J. Gresti, J. Demarquoy, I. Niot, J. Bézard and P. Martin-Privat (France) 191

Binding of lipoprotein lipase to apolipoprotein B-containing lipoproteins
P. Carrero, D. Gómez-Coronado, G. Olivecrona and M.A. Lasunción (Spain, Sweden) 198

Morphological observations on the fate of liposomes in the regional lymph nodes after footpad injection into rats
M. Velinova, N. Read, C. Kirby and G. Gregoriadis (UK) 207

Relative resistance of the hamster to aortic atherosclerosis in spite of prolonged vitamin E deficiency and dietary hypercholesterolemia. Putative effect of increased HDL?
O. Stein, Y. Dabach, G. Hollander, G. Halperin, J. Thiery and Y. Stein (Israel, Germany) 216

Activation of cytosolic phospholipase A_2 in permeabilized human neutrophils
S.A. Bauldry, R.E. Wooten and D.A. Bass (USA) 223

The desaturation and elongation of linolenic acid and eicosapentaenoic acid by hepatocytes and liver microsomes from rainbow trout (*Oncorhynchus mykiss*) fed diets containing fish oil or olive oil
M. Buzzi, R.J. Henderson and J.R. Sargent (UK) 235

Quaternary nitrogen compounds affect carnitine distribution in rats. Particular emphasis on edrophonium
P. Pessotto, R. Liberati, O. Petrella and W.C. Hülsmann (Italy, The Netherlands) 245

Cholesterol-independent membrane disruption caused by triterpenoid saponins
M. Hu, K. Konoki and K. Tachibana (Japan) 252

C_2-ceramide primes specifically for the superoxide anion production induced by *N*-formylmethionyl-leucyl phenylalanine (fMLP) in human neutrophils
A. Richard, S. Bourgoin, P.H. Naccache, G.P. L'Heureux, E. Krump, S.R. McColl and G. Pelletier (Canada) 259

Subsection

Regular paper

Synthesis of hydroxyeicosatetraenoic (HETEs) and epoxyeicosatrienoic acids (EETs) by cultured bovine coronary artery endothelial cells
M. Rosolowsky and W.B. Campbell (USA) 267

Corrigendum

Corrigendum to "1,25(OH)$_2$-Vitamin D-3 stimulates phospholipase A_2 activity via a guanine nucleotide-binding protein in chick myoblasts" [Biochim. Biophys. Acta 1257 (1995) 274–278]
A.R. De Boland, S. Morelli and R. Boland 279

Regular Section

Announcement: New Subsection of Lipids & Lipids Metabolism *v*

Publisher's Note *vi*

Rapid report

The counterion influence on cationic lipid-mediated transfection of plasmid DNA
A.M. Aberle, M.J. Bennett, R.W. Malone and M.H. Nantz (USA) 281

Regular papers

Diet fat alters expression of genes for enzymes of lipogenesis in lean and obese mice
S.K. Cheema and M.T. Clandinin (Canada) 284

Polyunsaturated fatty acid composition of the salmon (*Salmo salar* L.) pineal organ: modification by diet and effect on prostaglandin production
R.J. Henderson, J.G. Bell and M.T. Park (UK) 289

c-Ha-ras oncogene expression increases choline uptake, CTP:phosphocholine cytidylyltransferase activity and phosphatidylcholine biosynthesis in the immortalized human keratinocyte cell line HaCaT
C.C. Geilen, T. Wieder, S. Boremski, M. Wieprecht and C.E. Orfanos (Germany) 299

Formation of pregnenolone- and dehydroepiandrosterone-fatty acid esters by lecithin-cholesterol acyltransferase in human plasma high density lipoproteins
B. Lavallée, P.R. Provost and A. Bélanger (Canada) 306

Mechanism and structural requirements for transformation of substrates by the (*S*)-adenosyl-L-methionine:$\Delta^{24(25)}$-sterol methyl transferase from *Saccharomyces cerevisiae*
M. Venkatramesh, D.-a. Guo, Z. Jia and W.D. Nes (USA) 313

Subcellular fractions of bovine brain degrade phosphatidylcholine by sequential deacylation of the *sn*-1 and *sn*-2 positions
M.J. Pete, D.W. Wu and J.H. Exton (USA) 325

Subsection

Regular papers

Induction of glucosylceramide synthase by synthase inhibitors and ceramide
A. Abe, N.S. Radin and J.A. Shayman (USA) 333

Arachidonate mobilization is coupled to depletion of intracellular calcium stores and influx of extracellular calcium in differentiated U937 cells
B.A. Rzigalinski, P.F. Blackmore and M.D. Rosenthal (USA) 342

Pefabloc, 4-[2-aminoethyl]benzenesulfonyl fluoride, is a new, potent nontoxic and irreversible inhibitor of PAF-degrading acetylhydrolase
C. Dentan, A.D. Tselepis, M.J. Chapman and E. Ninio (France, Greece) 353

Cumulative Contents, Vol. 1299 359
